

Notes from the leadership group meeting 27th June

Cornwall Learning Disability Partnership Board review 2023

What this is about

These are notes of what we agreed at the 27th June meeting

At the meeting we talked about the feedback from people on making the Partnership Board work

We agreed a plan to share on

- Why the Board is here
- How it makes a difference

All the slides with Green heading are about the Board in the future

Where the Board fits

National government

NHS
Trusts

Cornwall and
Isles of Scilly
Integrated Care
Board

Cornwall
Council and
local Councils

People who
vote for
Councillors

Carers Partnership
Board

Autism Partnership
Board

Cornwall People
First

Disability
Cornwall

Support Providers Forum

What the Board is here to do

The Partnership Board exists to help people with learning disabilities in Cornwall live a better life

There are 3 main ways it does this

- Bringing people together to solve problems
- Sharing information, and learning across its networks
- Supporting positive change being led by its members and partners

What the Board is here to do

The Board links to Big Plans and decisions through the Integrated Care Board

The lead on the Board is part of the Partnership Board

The Partnership Board helps the Integrated Care Board make positive change by

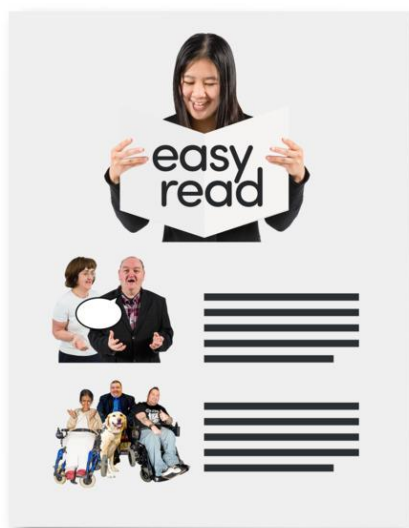

- Giving the Board a direct link to people with learning disabilities and their families
- Getting evidence on how services are working
- Making sure they know what matters to people with learning disabilities and their families

How the Board will work

To make sure that people with learning disabilities lead the work of the Board

- There will be support for local groups or networks to feed into the board and be part of the work
- There will be support for people to take on leadership roles
- All the work will be easy to understand and make everyone feel included
- There will be champions for topics where disabled and non disabled people work together

How the Board will work

To make a difference the Partnership Board will focus its work

It will do this by everyone sharing what they think is important

Together the Board will decide on the important things to work

It will also decide on what other work by members it can support and share

How the Board will work

The Board believes we are 'Stronger Together'

To do its work it will try to connect with all the community groups, services or charities that matter to people with learning disabilities

It will be a place to come to find out who is doing what

All members will work as equals

There will be induction on how the Board works and training for all members

How the Board will work

We want people to say

‘The Partnership Board is a great place to learn and have fun’

‘Members come together as one to make a difference’

‘Members of the Partnership Board want to make a difference’

Some things we need to find out more about

1. The Integrated Care Board (ICB)

Who is the lead for people with learning disabilities

Can the Partnership Board help train them?

Can the ICB help people's voices be heard and support their work via the Partnership Board?

2. Transport

Who leads on Transport?

Can the Carbon Neutral Challenge be a way of helping public transport get better ?

3. The Engagement team from the Council

Tina will find out how they could connect

What we will do at the next meeting

On 12th July we will work on

- 1 
- 2 
- 3 

- Who the leaders of the Board will be
- How leaders are supported
- How work gets done around the meetings
- How we make the Board somewhere people feel a responsibility to
- How meetings will work
- How decisions get made on what is important etc

The leadership group

Who was at the meeting

Mid-Cornwall Hub – Karen and Wayne

The Champs – Magee, Julie and Paul

Tina Sanford, Learning Disability, Autism and Transitions Manager,
Adult Social Care, Cornwall Council
