LEGAL AID CAMPAIGN

ACCOUNTABILITY

- Repeated issues
- Preventable deaths
- Failure to make changes to save lives and prevent future deaths
- Meaningful change

NO MORE DEATHS

The case for a National Oversight Mechanism

‘We need those meaningful answers of what they could’ve done differently early on, and that might save us as families years of our lives.’

FAMILY EXPERIENCES: Spencer

Transitions & CQC power to prosecute

- Particularly in the transition between children and adult's services
- Move away from person-centric care
- This creates risk

- CQC given the power to prosecute in 2015
- Registration of personal care creates gaps in accountability when used in situations such as supported living
- Accountability is key to the prevention of future deaths
